

Accredited BC Coatings Applicators

NAVENEER™

DESIGNER SURFACES™

Below is a National list of accredited BC Coatings Applicators recommended to polish our raw Naveneer boards.

We recommend finishing panels with BC Coatings ZILCH! finish.

Available in: UT405 Zilch! Super Matte (0-5%), UT410 - Matte 10%, UT430 - Satin 30%, UT450 - Semi-gloss 50%

Zilch! has been specially formulated for New Age Veneers and is a 2-pac polyurethane containing both a non-yellowing agent and UV inhibitor.

A UV inhibitor offers some protection against discolouration, but like all natural products, colour variation will occur over time.
