

GENERAL CLEANING

NEW AGE VENEERS™

PREMIUM SURFACES

CARE & MAINTENANCE

New Age Veneers™ premium surfaces offer a vast range of contemporary decorative finishes, featuring innovative technologies from Japan to achieve our Navurban™, Navurban Diamond™ & Navurban Elements™ ranges, reconstituted timber veneers from Italy & prefinished dyed natural timber veneers from Belgium. Due to the high quality finishes, this provides a low maintenance product with minimum cleaning required for you to enjoy in any space. All of New Age Veneers™ surfaces are easy to clean using a cloth dampened with warm water and detergent. Ensure to wipe in the direction of the grain structure for best results.

If in doubt about a particular cleaner or detergent, please reach out to your designated representative to assist with suitability. We recommend you test on a small area or sample prior to applying to surface. Any accidental spills or splatters from harsh chemicals should be wiped off immediately, and the area cleaned thoroughly with a damp cloth.

Please avoid using the following chemicals:

- Acetone or Trichloroethylene
- Ceramic Cooktop Cleaners
- Tub & Tile Cleaners
- Chlorine Bleach
- Oven Cleaners
- Harsh Detergents

Please avoid using the following cleaning materials:

- Abrasive Cleaners
- Powders
- Scouring Pads
- Steel Wool
- Sandpaper

Ranges that feature matching ABS edging, provides a low maintenance product to achieve refined and cleaned edges. Once edging is applied, aris trimming on the side if required then remove any excess glue if required. Remove burrs with file following the grain. Then take a non abrasive cloth and solvent to clean the edges, for best results clean in the direction of the grain.

Follow this QR code to a video aid of how to achieve flush and clean edges with our ABS range for our decorative finishes.

Additional information is available on the selective range specification brochure and MSDS sheet to provide further insight on our product materials and decorative finishes. All our ranges have undergone resistance testing to ASNZS 2924.2-1998 standards to demonstrate any changes experienced with general household items. These test reports are available on the range pages through newageveneers.com.au

If you have any further questions our team is readily available to assist along the way of your next design story using New Age Veneers surface.
